

# ISIE 2012 – The 21<sup>th</sup> IEEE International Symposium on Industrial Electronics

28-31 May 2012, Hangzhou, Zhejiang, China

Special Session on

## “FPGA for Industrial Control Systems”

organized by

Prof. Eric Monmasson, [eric.monmasson@u-ceryg.fr](mailto:eric.monmasson@u-ceryg.fr), Dr. Ray Cheung,  
[r.cheung@cityu.edu.hk](mailto:r.cheung@cityu.edu.hk), Dr. Marc Perron, [marc.perron@alitem.com](mailto:marc.perron@alitem.com)

### Call for Papers

Topics of interest include, but are not limited to:

- Application of FPGAs in Power Electronics and Drives
- Application of FPGAs in Robotics and Automation
- Application of FPGAs in Renewable Energy Systems
- Application of FPGAs in Aircraft and Automotive Systems
- Application of FPGAs in Real time measurement systems
- Design and test of FPGA-based System-on-Chip (SoC)
- Industrial experiences

**Submission procedure and deadlines: The same as for regular papers.**

All the instructions for paper submission are included in the conference website [www.ISIE2012.com](http://www.ISIE2012.com)

The IES Technical Committee on Electronic Systems-on-Chip sponsors this Special Session.
